

Incident Notification

Incident Date: October 23, 2020

Title: **Radiation Dose Action Level Exceedance**

Description: A worker at the McClean Lake Operation received a radiation dose which exceeded the Action Level of 1 mSv in a 1 week period defined in the Radiation Protection Code of Practice.

Resolution: Orano is investigating the circumstances of the event to improve dose control for workers. The worker is not expected to exceed the regulatory dose limit. Provincial and federal regulators were notified of the incident.
